

The Wisconsin No Call list, which has been in effect for 2 years, is a Godsend to me! Before this list/law, was enacted, it costs me plenty of monies to purchase whatever was on the market so I could screen my calls or prevent the calls from going thru to my phone. It was always annoying to receive calls from the telemarketing individuals at any hour during the day and mostly, night. My telephone is quiet every evening, now, and I wish for that to continue! Please do not let this benefit, that our lawmakers from Wisconsin established, slip away! Thank you for your time!
